Overview of Arizona Election Night Reporting

The Arizona Secretary of State uses an online tool called Election Night Reporting (ENR) to display results from elections on a Web site. The Web interface provides visitors with a graphical view of in-depth state and county results. You are presented with a breakdown of votes received for a choice by race. Maps illustrate the counties or precincts reporting, voter turnout, and results by county or precinct. A reporting area provides downloadable reports and custom filtering of results.

How do I access Election Night Reporting?

Election Night Reporting can be accessed at the Arizona Secretary of State Web site <http://www.azsos.gov>. On the page that appears click **2010 General Election Results**.

When and how often will the results be updated?

Once the precinct polling locations have closed, the results are reported to the county. The state aggregates results, and then begins reporting results to the public via the ENR tool. Updates occur throughout the night until all counties have reported their results for the evening. The results will continue to be updated for several days after the election until all ballots have been tallied.

How do I navigate Election Night Reporting?

The following pages will step you through how to navigate the ENR tool.

We will review the following areas:

- Home Page
- Synopsis Area
- Summary Tab
- Counties Reporting Tab
- Voter Turnout Tab
- Reports Tab
- Viewing County Results
