WHAT ARE DENTAL SEALANTS?
• Sealants are tooth-colored coatings that fill in the grooves of back teeth.
• Sealants keep out food and germs that cause cavities.

HOW ARE SEALANTS PLACED ON THE BACK TEETH?
• Teeth that need sealants are cleaned with a toothbrush.
• The sealant is painted on the tooth and quickly hardens.
• Placing sealants is painless and takes only a few minutes.

HOW DOES THIS PROGRAM WORK?
• All services are provided at no cost to you at your child's school.
• This program will never send you a bill.
• 2nd and 6th grade students with a signed consent form may receive a dental screening.
• Children without dental insurance or who have AHCCCS insurance are eligible for sealants.
• All information about your child is kept confidential.

HELP KEEP YOUR CHILD'S TEETH HEALTHY!
