★ after coughing, sneezing or blowing your nose
★ before and after any contact with someone who is sick or injured
★ any time your hands look dirty

If you do not have soap and water and your hands do not LOOK dirty, use hand sanitizer. It helps with killing some germs. Rub hand sanitizer all over both hands until they feel dry. No water is needed.

2. make lots of bubbles with soap
3. scrub hands and wrists for at least 20 seconds (sing Handwashing Song two times)
