Safety + Justice Challenge

6-Month Implementation

1) Jail Population Review Committee

- I. Assess the custody status of individuals in the Pima County Adult Detention Complex;
- II. Identify safe and effective release conditions for consideration by the court; and
- III. Reduce the use of jail while mitigating failures to appear and protecting public safety.

The Review Committee's goal is to work across all criminal justice agencies to foster a just, equitable, efficient, and effective criminal justice system. The Review Committee will identify a team of justice system stakeholders, who will meet regularly to review the pretrial population and probation pleas identifying defendants, who may be suitable for release on personal recognizance.

Safety + Justice Challenge

6-Month Implementation

1) Probation Best Practices Committee

The Adult Probation Department of the Superior Court in Pima County is committed to working with strategic partners to safely reduce the population of the county jail. Over reliance on jail sanctions is inconsistent with evidence-based practices and impedes our goal of achieving and maintaining an overall success rate of 78% or higher.

Our primary reduction strategies are as follows:

- I. Eliminate the use of automatic holds;
- II. Expand efforts to re-engage the absconder;
- III. Fewer and shorter coterminous sentences;
- IV. 10% reduction in Petitions to Revoke Probation.
