MEMORANDUM

To: Chuck Huckelberry, Pima County Administrator
CC: Hank Atha, Deputy County Administrator for Community & Economic Development
From: Margaret Kish, Community Development & Neighborhood Conservation Department Director

The Community Development and Neighborhood Conservation Department oversees two specific programs that manage General Obligation bond funded community projects. These bond funded programs differ significantly from other County bond projects, which include detailed information specific to each project when the bond proposals were developed.

Neighborhood Reinvestment and Affordable Housing programs utilize their designated bond funding for specific community based projects under the oversight of a citizen-appointed body. Specific projects are recommended by the citizen committees to the Board of Supervisors for final approval.

To date, fifty-four (54) projects have been approved by the Board for funding through the 2004 Neighborhood Reinvestment Bonds, and forty-one (41) projects have been completed, with the remaining projects in various phases of intergovernmental agreement approval, design, procurement, and construction. The entire $20 million in bonds now has been obligated by the Board of Supervisors.

Of the thirteen 13 incomplete projects, three (3) are in the IGA approval process, one (1) is in design, one (1) is in procurement, and eight (8) are under construction. The pending projects have an average funding allocation of $472,348. Seven of the unfinished projects have matching funds from Community Development Block Grants, Highway User Revenue Funds, City of Tucson Back to Basics, Arizona State Transportation Enhancement grants, and neighborhood association contributions. The remaining six projects were developed after supplemental funding sources evaporated, primarily due to the economic recession and increasingly tight government budgets.

Total cost savings from the 41 completed projects was $1,024,587. Two additional projects were submitted to and approved by the Neighborhood Reinvestment Oversight Committee and the Board of Supervisors with funding allocated from these funds.

Each year, an annual report is presented to the County Administrator regarding the status of the bond funded programs and the specific projects that are pending, in process and completed. This annual report focuses on the status of the 1997 and 2004 Neighborhood Reinvestment bond projects.

*Amount exceeds NB bond limit because allocations have been made with cost savings from completed projects.
Overview
The Neighborhood Reinvestment Program has been in existence since the 1997 Pima County bond election established General Obligation Bond funding for construction of small scale capital improvement projects to be selected through a neighborhood consensus process. The 1997 bond election provided $5 million for projects, and the 2004 Pima County Bond election established a fund of $20 million. Since May, 2005, the Neighborhood Reinvestment Oversight Committee has been meeting on a regular basis to review proposals with neighborhood residents presenting their project in detail and to discuss the benefits that will be realized with Neighborhood Reinvestment funds. The Committee makes recommendations to the Board of Supervisors who have the authority to approve all projects. To date, 34 projects have been approved with 125% of the $35,000,000 obligated by the Board of Supervisors. These projects represent urban, suburban, and rural areas throughout Pima County. The rationale behind the Neighborhood Reinvestment Oversight Committee, the methodology, results, neighborhood feedback, and future prospects are discussed below.

Mission and Purpose
The movement of Pima County residents to suburbs and exurbs has had a major impact on both urban and rural communities. This population migration has contributed to deterioration of the urban core neighborhoods, as limited public funds are stretched to pay for infrastructure in the new residential communities. Growth on the suburban fringe and rural areas of Pima County creates stress for these communities, as new development burdens roads, schools, parks, and law enforcement. In response to the burgeoning infrastructure needs in Pima County, the electorate approved Neighborhood Reinvestment Bond funding in 1997 and 2004. The dual functions of the Neighborhood Reinvestment Program are to fill gaps created by diminishing government dollars and to empower residents of the stressed neighborhoods.

Methodology
The unique Neighborhood Reinvestment funding allocation procedure originates at the grass roots, as residents themselves determine what capital improvement projects will be constructed. With the assistance of Neighborhood Reinvestment Program staff, neighborhoods select a project, obtain a cost estimate, and prepare a written proposal to submit to the Neighborhood Reinvestment Oversight Committee. After presentations by neighborhood representatives and site visits, the Committee forwards its recommendation to the Board of Supervisors. Should the Board approve the project, an intergovernmental agreement is executed between the County and the constructing jurisdiction. If the County will construct the project, a Memorandum of Understanding is executed between the Community Development Department and the constructing County department, usually Transportation, Parks, or Facilities Management.

Neighborhood Reinvestment Oversight Committee
The Neighborhood Reinvestment Oversight Committee is composed of five volunteer members, each appointed by one of the Pima County Supervisors. The Committee has been meeting up to 12 times per year since the 2004 Neighborhood Reinvestment Bond Program was implemented in 2005. The Committee’s primary responsibility is to review and make a recommendation concerning each proposal submitted by a community seeking Neighborhood Reinvestment bond funds for an infrastructure project. The Committee appoints a site visit subcommittee which meets with residents and NR staff in the neighborhood where the project would be constructed. The subcommittee presents its report to the full committee at its next meeting and after discussion, a vote is taken to recommend approval or rejection to the Board of Supervisors. In the course of assessing proposals, the Committee determines the eligibility of the neighborhood as a stressed area; the sufficiency of the group’s consensus process; collaboration with other neighborhoods, jurisdictions, and organizations; and steps taken to identify matching funds for the project. These criteria were established by the 2004 bond implementation ordinance.

In addition to screening and making recommendations of funding proposals, the Oversight Committee reviews the NR program, its process and procedures, and makes suggestions for enhancing effectiveness of the program.

The five current Oversight Committee members are:
District 1 - Al Skorupski, Chair
District 2 - Felipe Lundin
District 3 - Tony Bruno (resigned September 2011)
District 4 - Corey Knox
District 5 - Elvia Lopez, Vice Chair

Results
Using this process, forty-one 1997 Neighborhood Reinvestment Bond projects were approved by the Pima County Board of Supervisors. Forty projects have been completed and the remaining one is expected to be finished before the end of FY2010/11. The entire $5 million in 1997 bonds has been allocated.

The 2004 Neighborhood Reinvestment Oversight Committee held their first meeting in May, 2005, with the first project recommended to the Board Of Supervisors in July, 2005. Since that time, fifty-two 2004 Neighborhood Reinvestment projects have been approved by the Board, and thirty-one projects have been completed, with the remaining twenty-one projects in various phases of development, design, and construction.

Twelve of the pending projects are located in the City of Tucson, with one project in the City of South Tucson. Twenty-one projects were finished during FY2005/06 through FY2008/09, fifteen in FY2009/10, and six in FY2010/11. Nine projects are expected to be completed in FY2011/12, and four in FY2012/13. Neighborhood Reinvestment projects include traffic mitigation devices, street lights, park improvements, sidewalks, walking paths, pedestrian bridges, sports facilities, and community buildings. In recent proposals, neighborhoods have included rainwater reclamation and other “green” features in their project proposals, reflecting the developing community value of sustainable infrastructure.

Unlike the 1997 Neighborhood Reinvestment Bonds, the 2004 funding can be utilized in all Supervisorial Districts, including the suburban and rural areas of Pima County. Ten rural projects have been approved so far: Amado (community building), Marana Vista (public safety enhancements), Robles Junction (recreation facility), Santa Catalina (community center), Catalina (community center), Ajo (skate park), Arivaca (park improvements), Catalina II (public health clinic), Continental (pediatric health clinic), and Picacho Park (youth recreational facility). Neighborhood Reinvestment produces needed capital projects, but it also provides the neighborhoods with organizational tools to work on other pertinent issues. Residents learn to identify resources, use conflict resolution, collaborate, compromise, and build consensus. Most neighborhoods succeed in creating project proposals; all benefit from the process. As residents prepare their proposal, they acquire a sense of control over their neighborhood’s future and recognition that the larger community respects their contribution. Empowered people are more likely to participate in their communities by voting, addressing issues that affect their families, and otherwise becoming an involved citizenry.

Neighborhood Feedback
The neighborhoods with completed capital improvement projects have expressed satisfaction with the projects and with the Neighborhood Reinvestment process.

The survey responses establish that the Neighborhood Reinvestment Program continues to fulfill its purpose of reinvigorating stressed neighborhoods by installing needed infrastructure and developing a process for residents to accomplish collective goals. Comments from neighborhood residents:

"The Neighborhood Reinvestment project on Grande has changed how people see the residential in our neighborhood. It has taken us back to the old days when people “cruised up and down” Grande. We get more foot traffic in and from people driving in (Paro) and people are interacting more; not just waiting for their cars. The sidewalks have pedestrians feel safer too. I have noticed that the kids and teachers from the Arizona School for the Deaf and Blind are using Grande much, much more. It has made our neighborhood a much nicer place to live in." - Charlie Hernandez
Owner & Operator, Paro’s chili Dogs
“Listening to the people from the neighborhoods is being able to understand their struggles, their growth and their consensus building efforts cemented in me the worth of community and neighborhood development and the difference it can make in the growth and change in local neighborhoods. The committee has changed and evolved in its makeup over the years, but the one constant thing has been the dedication of the committee members in their efforts to make their communities a better place to live.”

Al Skorupski, Chair
District 1 - Appointed 2005

“I really enjoy being a part of this board and appreciate all of the hard work that staff puts into a project. You really appreciate it whenever you pass by a school or a playground and you see the children playing and enjoying the playground equipment or the shade. Also whenever you pass by a park that was not there before staff and the Board of Supervisors got involved. You always receive a sense of satisfaction and pride in knowing that you had a small part in the completion of that particular project.”

Felipe Lundin
District 2 - Appointed 2006

“The NR meetings always show me the best of our community: neighbors helping neighbors, government jurisdictions putting aside difference to support those neighborhoods, it is what our Country is about, it is truly a grassroots, bottom up program.”

Tony Bruno
District 3 - Appointed 2009

“Successfully completing the grant seeking process energized my neighborhood to seek other grants, such as the half million dollar traffic enhancement grant we subsequently received. Residents were encouraged that improvement were being made, money spent on our neighborhood. Personally, going through this process, drove home to me that one person could make a huge impact on the larger world. It caused me to for the first time to become actively involved in my neighborhood.”

Meg Johnson – Garden District

“We cant thank you enough for you generosity in approving our grant request. Our low-income neighborhood is designated a “mild-to-high-risk” area – and our youths and adults now have a nice place to safely be outside, exercising, or recreating, or just relaxing together. For many of our residents, our park is an acknowledged luxury they appreciate – just stop by any afternoon or early evening and count the folks – it’s a joy to behold.”

Marsha Quinn – Miracle Manor

“Over the years of serving on NROC, I have come to know the community of Tucson in a deep and personal way. The level of commitment and creativity expressed through the projects developed by the neighborhoods of Tucson is inspiring and shows what this town is made of!”

Corey Knox
District 4 - Appointed 2009

“The best thing about being on the Oversight Committee is being able to help communities. Some communities go unnoticed. Our projects help to lower the stress in their neighborhoods and give a ray of hope to these communities.”

Elvia Lopez, Vice Chair
District 5 - Appointed 2005

MISSION
STATEMENT:

To promote stability and revitalize stressed communities through the funding of small capital improvement projects selected through a community consensus process.
The process enabled the City and its residents to work together in an effort to achieve a common goal. Meeting with the residents one-on-one, helped bring forth a link between City and residents and the business community. Collaboration from the Pima County Neighborhood Reinvestment staff made the project run efficiently and helped facilitate a relationship for future projects in the City of South Tucson. The City of South Tucson is most grateful for the opportunity afforded through the Neighborhood Reinvestment Program. We feel that the two mini-parks are a worthwhile project to be enjoyed by our residents and future generation to come. – Enrique Serna - South Tucson

The Future
Several major challenges remain for the Neighborhood Reinvestment Program:

1. Limited Funding. With the $20 million from the 2004 bonds fully allocated, the only remaining funds for neighborhood projects will be the cost savings from completed projects, which is unlikely to be sufficient to fund any additional projects at this time. Until and unless Pima County voters support additional funding in a new bond election, the Neighborhood Reinvestment Program will come to an end when the last approved project is completed in two to three years. Every neighborhood with a completed project has informed the program that it has additional serious infrastructure needs, and every month there are new inquiries from Pima County neighborhoods and communities seeking information about NR funding. These neighborhoods have been told that no new applications are being accepted and none will be until additional bond funds are approved by Pima County residents.

The limited funding challenge will continue. For a future Pima County bond election, the Neighborhood Reinvestment Oversight Committee has formally recommended to the Bond Advisory Committee that it include:

• Pima County Neighborhood Reinvestment funding in the amount of $30 million,
• City of South Tucson NR funding of $1 million, and
• Town of Marana funding of $750,000.

The Pima County Bond Advisory Committee has tentatively discussed November 2013 as the date they will recommend for the next bond election. They have also voted a preliminary recommendation of $30 million for the next Neighborhood Reinvestment bond program. Neighborhoods continue to be encouraged to seek supplemental funding from public and private sources. However, funding sources previously available to neighborhoods within the City limits, such as Back to Basics funding, have been scaled back or defunded, creating more demand on the County bond funds. To date, 1997 and 2004 projects have leveraged a total of $15.7 million from other sources.

2. Neighborhood Stress Evaluation. The Neighborhood Reinvestment bond program is designed to benefit stressed neighborhoods and communities. Neighborhood Reinvestment staff, Oversight Committee, and the Board of Supervisors determine the stress level of a neighborhood by reference to the Pima County Composite Stress Index maps, which were developed using data from 2000 United States Census information. Because this information is outdated and because relevant stress factors like criminal activity and residential and commercial growth were not included in the mapping process, the maps are incomplete sources in determining the stress level of many communities. Accurate neighborhood stress evaluation has been addressed by updating old data and including unrecognized stress factors in the written project proposals and neighborhood presentations to the Neighborhood Reinvestment Oversight Committee, which makes recommendations to the Board of Supervisors. The Committee has recommended that, for future Neighborhood Reinvestment bond programs, Pima County contract with qualified consultants to research and update the Composite Stress Maps. Staff has undertaken preliminary steps to identify alternative models and has contacted an appropriate consultant, but no additional steps have been taken pending a decision on future bond funding.

3. Neighborhood Reinvestment Outreach. During FY2009/10, Neighborhood Reinvestment staff expanded their involvement in Pima County communities in a variety of ways beyond development of Neighborhood Reinvestment projects, including:

• Neighborhood Reinvestment staff continued collaboration with Community Development Block Grant and Pima County Path Based Initiatives staff to provide leadership development and resource networking in the communities of Rillito and Robles Junction.
• NR staff assisted the Neighborhood Stabilization Program with identifying appropriate neighborhoods for revitalization funding (from the American Recovery and Reinvestment Act) and conducted door to door surveys in neighborhoods impacted by NSP investment.
• Neighborhood Reinvestment staff partnered with the Home Repair and Weatherization Program to plan and implement outreach to underserved and underserved areas in unincorporated Pima County, in order to effectively target federal stimulus funding.

Conclusion
The Neighborhood Reinvestment Program has benefited all portions of Pima County. All five Supervisors Districts are represented on a citizen oversight committee. The Program funds infrastructure improvements in older urban neighborhoods and enhances the public spaces of growing suburban and rural communities. Neighborhood Reinvestment projects have provided recreational opportunities, improved public safety, community gathering spaces, and pride of place to the families, youth, elderly, and disabled residents of Pima County. Every neighborhood with a completed project has reported strong satisfaction with the Neighborhood Reinvestment process and resulting infrastructure project. In these communities the Neighborhood Reinvestment Program has achieved its goals of physical revitalization of stressed communities and empowerment of residents.

There are at least 35 identified stressed communities in Pima County which have not yet applied for Neighborhood Reinvestment funding, and all neighborhoods with 1997 or 2004 Neighborhood Reinvestment Bond projects have informed the Program they wish to develop second applications for additional improvements. Rural communities and highly stressed urban neighborhoods constitute the majority of these potential applicants and are the most lacking in functional infrastructure. Because Pima County’s stressed communities continue to require infrastructure improvements and because government continues to have stringent budget limitations, Neighborhood Reinvestment Bond funding is a vital program for filling the gaps and improving the quality of life for all Pima County residents.

#### Monthly Highlights

- **December 2012**: The items in this proposal include a 3,600-foot long asphalt sidewalk around the perimeter of Freedom Park, with lighting, drinking fountains, fitness stations, and playground shade structures; in an effort to provide much needed recreational amenities while increasing safety for those who utilize the park.
- **December 2009**: The installation of 5-foot sidewalks and 21 streetlights throughout the neighborhood will provide established safety measures, make residents more visible to motorists and, also hopefully deter criminal activity.
- **April 2012**: Improvements will allow for the creation of safer streets for youth, family, disabled and elderly pedestrians, and automobile drivers, and the overall stabilization of the neighborhood.
- **May 2010**: Create recreational and fitness opportunities for neighborhood residents and the enhancement of community stability and identity through the construction of a steel basketball court cover to protect a new regulation sized basketball/volleyball court, retractable standards, bleachers, and a concrete stage and viewing area.
- **March 2012**: Increased pedestrian safety and mobility, and the provision of additional recreational and exercise opportunities for individuals, children, elderly, and families will result in an effort to enhance the overall quality of life for the residents of the neighborhood and the larger community as a whole. The rainwater run-off/harvesting system will feed local native vegetation, and minimize the potentially hazardous effects of overcollection in the event of heavy rainfall or flash flooding.
- **December 2011**: The installation of ADA accessible sidewalks and pedestrian ramps, a HAWK light, and stamped asphalt and artwork to tie the project into other on-going neighborhood beautification efforts, will help make the neighborhood safer for youth, families, and elderly living in a high-stressed area, as well as produce viable capital improvements.
- **March 2010**: Construction of a new community park with a display wall of papel picados, rose bushes, chess board table, and ground coverings. This area is where two young brothers were killed by a drunk driver who ran a stop sign, and a memorial was placed on the spot where their care came to a stop. The neighborhood wanted to protect this shrine and to create an area where people who frequent the memorial have a place to reflect and enjoy the outdoors.
- **November 2011**: Construction of chicanes and concrete sidewalk, installation of water harvesting cisterns and street trees, and implementation of park improvements for the purposes of traffic mitigation, increased pedestrian safety, environmental sustainability, and providing improved recreational amenities in an effort to enhance the overall quality of life for the residents of the neighborhood and the larger community as a whole.
- **October 2009**: The construction of a 3,600 square – foot pediatric health clinic will provide improved and expanded pediatric health care services for residents of the Continental Community and Southern Pima County.
- **June 2012**: Creation of safer streets for all users – cars, bicycles, and pedestrians. Improvements will result in less cut-through traffic and slower traffic speeds, improve the walkability of the neighborhood and make bicycle riding safer, as well as build the community up by bringing together neighbors to help plan, design, and implement the traffic calming, water harvesting and public art projects together.
- **October 2009**: Construction of large and small playground shade structures, swings and picnic shade covers, all to be placed over existing playground equipment and picnic tables will provide increased recreational opportunities and the overall enhancement of community stability and identity.
- **December 2011**: Installation of streetlights for the purposes of increased pedestrian safety and mobility will provide additional recreational and exercise opportunities for residents, children, elderly, and families in an effort to enhance the overall quality of life for the citizens of the neighborhood and the larger community as a whole.
- **September 2012**: The construction of pedestrian safety improvements and souther gateway into downtown Tucson for the benefit of local residents, businesses, and the public at large.
- **December 2009**: The construction of park improvements, landscape modifications, water harvesting, and materials for the South Riparian Area of 20/30 Park will create fitness opportunities and the stabilization and enhancement of community identity.
- **December 2010**: The construction of sidewalks and traffic circles hopes to address important elements of need for pedestrians, as well as create safer streets for youth, family, disabled and elderly pedestrians and automobile drivers, and positively impact the overall stabilization of the neighborhood.
Installation of children’s swing-sets, a multi-purpose game court with basketball hoop, a walking path, picnic tables, ramadas, and barbecue grills to provide neighborhood residents a park with enhanced recreational, exercise, and sports opportunities.

**SCOPE & DIRECT BENEFITS**

- Reduces crime by lighting some of the neighborhood, creating a more friendly atmosphere and having residents interact more with each other.
- Construction of new park and recreational facilities at the vacant Ajo Retention Basin site for general public use that provide needed amenities for youth, individuals, elderly, and families of the surrounding neighborhoods in order to improve the quality of life for the local residential population.
- Park improvements and a water harvesting project at Venaligo Park, and the addition of one street lamp on 18th Street and one traffic circle at the intersection of Kroeger Lane and 19th Street will help create recreational opportunities and the enhancement of community stability and identity as well as to create safer streets for all users -- cars, bicycles, and pedestrians. These improvements will result in less cut-through traffic and slower traffic speeds, and improve the walking ability of pedestrians and make bicycle riding safer.
- Pedestrian safety improvements in the form of a traffic circle, 4 speed humps, 6 street-chokers, 5 bump-outs, and 6 neighborhood-entry medians to alert drivers to sensitive pedestrian areas. Park improvements are to include a ramada, seat-walls, picnic facilities, a group barbecue grill, shade areas for the park’s existing playground and public pool, and a paved place with additional seat-walls, benches and shade trees to be located at the corner of Grande Avenue and Fresno Street. The improvements will make neighborhood safer for youth, families and elderly living in high-stressed area and produce visible capital improvements.
- Construction of sidewalks that will connect the recently updated ADA ramps and incorporate public art tile work into the construction of the sidewalk. The project addresses critical elements of need for pedestrians: substandard & nonexistent infrastructure , and ramps compliant with the Arizona with Disabilities Act. This project also creates safer streets for youth, family, disabled, and elderly pedestrians, automobile drivers, and the overall stabilization of the neighborhood.
- Installation of children’s swing-sets, a multi-purpose game court with basketball hoop, a walking path, picnic tables, ramadas, and barbecue grills to provide neighborhood residents a park with enhanced recreational, exercise, and sports opportunities.
- Installation of streetlighting throughout the northeastern portion of the neighborhood. This area is close to Freedom Park and a known area for illegal activity. Streetlights will reduce the amount of crime and illegal activity that has overflowed into this area of the neighborhood.
- Installation of pedestrian safety improvements (including pedestrian and street lighting), traffic mitigation and abatement in the form of chicanes along Elm Street between 1st and 6th Avenues. A pedestrian corridor will use public easements along 5th Avenue to create a direct connection to Mansfield Park and a greenway along 5th Avenue. These improvements will make the neighborhood safer for youth, families and elderly living in a high-stressed area and produce visible capital improvements.
- The construction of sidewalks in a high pedestrian area will create safer streets for youth, family, disabled and elderly pedestrians and automobile drivers, and promote the stabilization of the neighborhood.
- A BMX-Skate Park will consist of an 8,000 square-foot concrete floor and 8 above ground modules for beginners to advance skill levels, with security cameras throughout. The entire community will benefit because the youth will have a safe venue for their sports, a productive outlet for their energies, and a helpful way to spend their free time.
- This project consists of walking paths, a ramada, and awning that were placed where the students ingress and egress. It allows parents and students to have a place with shelter during the summer months and rainy season, so they do not have to walk in the mud and dirt in this area.
- The installation of chicanes, medians, and water harvesting features on 9th & 10 Streets will result in increased safety for any pedestrians walking within the neighborhood in an area which has many non-residents walking and biking through to the University of Arizona campus.
- The installation of a pedestrian bridge over Rodeo Wash, connecting the western part of neighborhood with CE Rose Elementary School and Linear Park will result in increased safety for pedestrians accessing these areas and traversing to and from each location.
- A 15,000 square-foot skate park facility will help keep kids off of the streets, and prevent them from frequenting government buildings and other private property where they were skating and damaging property, while also removing a blank area from the existing larger park.
**SCOPE & DIRECT BENEFITS**

$425,000

**December 2012**

Acquisition of property for the purpose of developing a community garden and farmers market for the benefit of the residents of South Tucson.

**FUNDING**

- **Toumey Park**

**Toumey Park**

$488,000

**District 2 – Ward 6**

**South Tucson**

- **Community Garden and Farmers Market**

**West University**

$476,190

**District 5 – Ward 6**

**COMPLETION DATE**

- **April 2011**: Acquisition of property for the purpose of developing a community garden and farmers market for the benefit of the residents of South Tucson.
- **November 2011**: Installation of traffic mitigation devices in the form of speedhumps, speed tables, and traffic circles for the purposes of increased pedestrian safety and mobility, and reducing the potential negative effects of high-speed and cut-through traffic throughout the neighborhood. In addition, placing sidewalks in areas which currently have none will also enhance and secure pedestrian safety and mobility. Finally, park improvements will provide additional recreational and exercise opportunities for individuals, children, elderly, and families. All improvements are being sought in an effort to enhance the overall quality of life for the residents of the neighborhood and the larger community as a whole.
- **December 2012**: Installation of a new at-grade skate park, ramada, asphalt walking path, lighting, fencing, drinking fountain, and picnic tables; to allow kids from the surrounding neighborhoods recreational access. It will also prevent any further damage to the school/church grounds as this is the location the kids have been using to this point.
- **June 2012**: The construction of an integrated play area that includes updating equipment for a wading pool, splash pad and playground equipment at Catalina Park will create recreational opportunities and the overall enhancement of community stability and identity.

</thead>
<tbody>
<tr>
<td>Julian Wash</td>
<td>$64,000</td>
<td>Julian Wash Neighborhood</td>
<td>February 2006</td>
<td>Placement of speed humps in an effort to improve safety and remove potentially harmful barriers by controlling the speed of traffic on the only entrance and exit corridor through the neighborhood.</td>
</tr>
<tr>
<td>Jefferson Park</td>
<td>$5,000</td>
<td>Jefferson Park Neighborhood District 5 – Ward 3</td>
<td>October 2004</td>
<td>Installation of new sidewalks, street lighting, curbing, paving, and bus stop benches and shelters to promote improved health and increased safety of neighborhood residents.</td>
</tr>
<tr>
<td>Mirio Park</td>
<td>$150,000</td>
<td>Mirio Park Neighborhood District 5 – Ward 1</td>
<td>December 2006</td>
<td>Installation of a HAWK light, speed humps, street bump-outs, and traffic circles; for the purposes of providing safer streets for youth, families and elderly pedestrians.</td>
</tr>
<tr>
<td>Corbett Bridge</td>
<td>$10,000</td>
<td>Corbett Neighborhood District 2– Ward 4</td>
<td>September 2004</td>
<td>Replacement of an aging and dilapidated wash crossing in order to provide a safe and ADA accessible pedestrian bridge for use by the neighborhood residents.</td>
</tr>
<tr>
<td>Wakefield Art</td>
<td>$35,000</td>
<td>Wakefield Neighborhood Districts 2 &amp; 5 – Ward 5</td>
<td>May 2007</td>
<td>Installation of artwork to complete neighborhood traffic improvements, which improves overall neighborhood quality of life and enhances community identity.</td>
</tr>
<tr>
<td>Sunnyside</td>
<td>$150,000</td>
<td>Ochou &amp; Mission View Elementary Schools - District 2</td>
<td>July 2007</td>
<td>Installation of new park ramadas, benches, pathways, peace garden, traffic circles, and speed humps/tablets. These improvements beautify the park, improve the safety of streets, and enhance overall community identity.</td>
</tr>
<tr>
<td>Pueblo Gardens Elementary</td>
<td>$138,000</td>
<td>Pueblo Gardens Elementary School District 2 – Ward 5</td>
<td>October 2008</td>
<td>This project consists of walking paths, a ramada, and awning that were placed where the students ingress and egress. It allows parents and students to have a place with shelter during the summer months and rainy season, so they do not have to walk in the mud and dirt in this area.</td>
</tr>
<tr>
<td>Santa Rita</td>
<td>$150,000</td>
<td>Santa Rita Park Neighborhood District 2 – Ward 5</td>
<td>March 2009</td>
<td>A 15,000-square-foot skate park facility will help keep kids off of the streets, and prevent them from frequenting government buildings and other private property where they were skateboarding and damaging property, while also removing a blank area from the existing larger park.</td>
</tr>
<tr>
<td>Old Pascua</td>
<td>$150,000</td>
<td>Old Pascua / Adelante Neighborhood District 5 – Ward 3</td>
<td>July 2007</td>
<td>Expansion of community recreation center, and installation of retaining wall, speed humps, traffic circles, and sidewalks, for the purposes of providing safer streets for resident pedestrians and drivers, increased recreational opportunities for residents, and enhanced overall community identity.</td>
</tr>
<tr>
<td>Sunset Villa</td>
<td>$150,000</td>
<td>Sunset Villa Neighborhood Districts 2 &amp; 5 – Ward 5</td>
<td>June 2009</td>
<td>Construction of public safety improvements including sidewalks, traffic mitigation (speed humps and traffic circles), and public art; which addresses key elements of need for pedestrians: substandard &amp; nonexistent infrastructure, and ramps compliant with the Americans with Disabilities Act. This project also creates safer streets for youth, family, disabled and elderly pedestrians and automobile drivers, and overall stabilization of the neighborhood.</td>
</tr>
<tr>
<td>Rancho Chukshon/ Kroeger Lane</td>
<td>$150,000</td>
<td>Barrio Kroeger Lane District 5 – Ward 1</td>
<td>June 2011</td>
<td>Park improvements and a water-harvesting project at Verdugo Park, and the addition of one street hump on 18th Street and one traffic circle at the intersection of Kroeger Lane and 19th Street will help create recreational opportunities and the enhancement of community stability and identity as well as to create safer streets for all users – cars, bicycles, and pedestrians. These improvements will result in less cut-through traffic and slower traffic speeds, and improve the walking ability of pedestrians and make bicycle riding safer.</td>
</tr>
</tbody>
</table>

#### TOP FIVE BENEFITS OF NR PROJECTS (according to neighborhood residents)

- Encourages residents to walk, exercise or play outdoors
- Improves the appearance of the neighborhood
- Promotes a stronger sense of community pride
- Strengthens relationships among neighbors
- Provides a process to prioritize community needs

SUMMARY

The community building serves as a health clinic and food bank for the residents in Catalina. The 5,000 sq. ft. building contains exam rooms, consulting rooms, laboratory, refrigeration room, and lobby. The food bank provides food pick up for the surrounding area of Catalina. Since the opening of the Catalina Community Services building, the clinic has seen a 25% increase in Catalina patients, and the food bank has seen a 20% increase in food requests.
“The market will be a great place for me and my family to get fresh grown vegetables and spices, which will be a big improvement for our health.”
   Jose Moreno - S.T. Resident

“The park improvements have given the residents of Arivaca an area to congregate for special events and family outings.”
   Mary Kaulatasis - Arivaca Resident

**SUMMARY**

The project includes an accessible restroom, two covered ramadas approximately 16X16 sq. ft. with concrete floors, two picnic tables, 9,000 sq. ft. covered walking path, and resurfaced outdoor basketball court. With the park improvements the residents of Arivaca have a safe place to exercise and have outdoor gatherings.
The pedestrian amenities that the Jefferson Park Neighborhood Association had installed with Pima County Neighborhood Reinvestment funds make walking in their historic area safer and easier, and give them, and their visitors, unique artwork to enjoy. District Five Supervisor Richard Elías.

"Before the sidewalks were built, the busy street had mothers pushing strollers in the street walking their children to school, wheelchair bound residents in the bike lane and children walking on dirt right of way. It has provided our community with a more comfortable and attractive walking stretch." Midtown/Garden District Resident

“The pedestrian amenities that the Jefferson Park Neighborhood Association had installed with Pima County Neighborhood Reinvestment funds make walking in their historic area safer and easier, and give them, and their visitors, unique artwork to enjoy.”

District Five Supervisor Richard Elías.

**COMPLETION DATE**
December 2010

**SUMMARY**
The project consists of construction of a soccer field, restroom stubouts, security lighting and fencing, a parking lot and utilities. The soccer field improvements provide recreational opportunities for Robles Junction youth and families, in a rural community which lacks such amenities.

“The soccer field gives the community and the school a place to exercise and bring residents together for social events.”
Doug Roe - Robles Jct. Resident

**SUMMARY**
The project consists of construction of a soccer field, restroom stubouts, security lighting and fencing, a parking lot and utilities. The soccer field improvements provide recreational opportunities for Robles Junction youth and families, in a rural community which lacks such amenities.

“The soccer field gives the community and the school a place to exercise and bring residents together for social events.”
Doug Roe - Robles Jct. Resident

**Survey Questions**

- Average years residents have lived in the neighborhood: Miracle Manor 21.5, Myers 28.8, Marana Vista 19, Santa Catalina 21, South Tucson 15, A Mountain 18, Ajo 14, Julia Keen 17.
- Held Leadership position/Community organization: Miracle Manor 12% Never, Myers 42% Held Position, Marana Vista 50% Never, Santa Catalina 8% No Answer, South Tucson 12% Held Position, A Mountain 40% Never, Ajo 67% Held Position, Julia Keen 37% Never.
- Participated in developing Neighborhood Reinvestment Project: Miracle Manor 48% yes, Myers 12% no, Marana Vista 3% No Answer, Santa Catalina 50% Never, South Tucson 48% Yes, A Mountain 12% No Answer, Ajo 48% Yes, Julia Keen 12% No Answer.
- Attended Neighborhood Meeting: Miracle Manor 11%, Myers 33%, Marana Vista 57%, Santa Catalina 62%, South Tucson 0%, A Mountain 88%, Ajo 100%, Julia Keen 67%.
- Participated in Voting: Miracle Manor 22%, Myers 3%, Marana Vista 9%, Santa Catalina 20%, South Tucson 0%, A Mountain 75%, Ajo 0%, Julia Keen 42%.
- Helped draft written proposal: Miracle Manor 0%, Myers 8%, Marana Vista 57%, Santa Catalina 62%, South Tucson 0%, A Mountain 50%, Ajo 100%, Julia Keen 20%.
- Attended Neighborhood Reinvestment Oversight Meeting: Miracle Manor 0%, Myers 8%, Marana Vista 14%, Santa Catalina 0%, South Tucson 50%, A Mountain 100%, Ajo 20%, Julia Keen 20%.
- Other: Miracle Manor 5%, Myers 0%, Marana Vista 0%, Santa Catalina 0%, South Tucson 0%, A Mountain 5%, Ajo 0%, Julia Keen 42%.
- No Response: Miracle Manor 67%, Myers 22%, Marana Vista 29%, Santa Catalina 25%, South Tucson 20%, A Mountain 0%, Ajo 0%, Julia Keen 0%.
- If they or family have used project: Miracle Manor 48% Yes, Myers 48% No, Marana Vista 12% No Answer, Santa Catalina 100% Yes, South Tucson 48% Yes, A Mountain 12% No Answer, Ajo 100% Yes, Julia Keen 100% Yes.
- If they felt the project improved the neighborhood: Miracle Manor 67% Yes, Myers 22% No, Marana Vista 15% No Answer, Santa Catalina 100% Yes, South Tucson 48% Yes, A Mountain 12% No Answer, Ajo 100% Yes, Julia Keen 100% Yes.
