

MEMORANDUM

Date: March 12, 2010

To: Chairman and Members
Pima County Bond Advisory Committee

From: *NLF*
Nicole Fyffe
Executive Assistant to the
County Administrator

Re: **March 19, 2010 Meeting – Planning for 2011 Bond Election**

Attached are three documents for the March 19, 2010 Bond Advisory Committee meeting. The first is a proposed timeline for 2011 bond election planning. The second includes updated 2011 project tables reflecting the actions of the Committee at the last meeting. A total of 61 projects have been tentatively approved, totaling \$260,895,000. Several projects under Group 2 Subcategory B (projects where the County Administrator recommended less than the Subcommittees) were continued from the last meeting. These projects are on the agenda for March 19 under item 5C and are listed on page 2 of the attached tables.

Descriptions of all of the projects are on the County's web site at www.bonds.pima.gov/future. In addition, we have added a specific link to just these 22 projects so that you can review them in preparation for the meeting. It may also help you to reference the County Administrator's November 19 memo that provides justifications for the differences in recommended funding for many of the 22 projects.

The third attachment is a memorandum from the County's Conservation Acquisition Commission to the Bond Advisory Committee regarding future funding for the acquisition of State Trust land.

Conservation Acquisition Commission Memorandum

Pima County

Conservation Acquisition Commission

March 10, 2010

To: Chairman and Members
Pima County Bond Advisory Committee

From: Chairman and Member 
Conservation Acquisition Commission

**Re: Consideration of a New Category for Conservation of State Trust Land
For Future Bond Election**

In October 2007, the Conservation Acquisition Commission forwarded a recommendation for continued funding of the Conservation Acquisition Program in the amount of \$285 million for acquisition of both private and State land. It is our understanding that the County Administrator is recommending a total of \$120 million for the program. At our recent March 4, 2010 Commission meeting, the County Administrator touched upon the possibility of introducing a new category for land conservation dedicated solely to acquisition of State Trust land. Mr. Huckelberry explained that this particular category's allocation could be separate and above the \$600 to \$700 million cap discussed for the overall bond program, and could include language restricting sale of the authorization only if State Trust land reform occurs or if another opportunity for the County to purchase State land arises.

The Commission discussed this issue at length and will continue to work further on a proposal to accommodate State Trust land acquisition opportunities, with an allocation of no less than \$100 million, as suggested by the County Administrator.

For information purposes for the Bond Advisory Committee, initial comments and concerns from Commission members included:

- Would introduction of a new State Trust land category confuse voters?
- Are there negative opinions associated with State Trust land due to past failed reform efforts that would impact the land conservation question?
- Should State Trust land be a separate ballot question, or should it be included as a category under the land conservation question?
- Would language relating to the timing of the sale of authorization for State Trust land add another layer of complexity for voters?

We anticipate this being an item for discussion and final recommendation at our May 13, 2010 Commission meeting, which would be prior to the Bond Advisory Committee's meeting on May 21, 2010.

Thank you for your continued consideration of future bond funding for land conservation.
