Pima County Bond Projects Update

September 2012

1. Tortolita Trail System
   Bond No. PR4.40 – $1,200,000

2. Santa Cruz River Bridges
   Bond No. PR5.9 – $200,000
Project Summary

Funded through the 2004 Special Bond Election for $1,200,000, the Tortolita Trail features a trailhead and more than 30 miles of trails in the scenic Tortolita Mountains (IGA 01-05-M-126274-0605). The Tortolita Trail System is providing a regional benefit by offering recreational opportunities for hikers, equestrians and mountain bicyclists through the 3,245-acre Tortolita Mountain Park and the 2,400-acre Tortolita Preserve.

Update

The trailhead at Wild Burro Canyon was completed more than a year ago and hikers are enjoying the 25 plus miles of trails. Completed trails include Wild Burro Canyon (3m), Alamo Spring Trail (2m), Upper Javelina Trail (2.6m), Wild Mustang Trail (4m) and the Cochise Spring Trail (3.6m). Trail crews continue to work through the spring and summer to complete the trail extension to Pinal County. Additional trail construction is planned for Cochite Canyon, Wild Burro Wash, and an eastern access into Tortolita Mountain Park. Improvements to the Tortolita Preserve Trailhead are being implemented. Robin Riley is the artist selected to provide public art at the trailhead.

Although approximately 1.5 miles of the Ridgeline Trail have been constructed, trail crews continue to expand the trail further into the Tortolita Mountain Park. To date, more than $875,000 in reimbursement requests have been made to Pima County Parks and Recreation. Additional requests for $140,000 are expected to be submitted for reimbursement prior to end of the fiscal year. Trail construction will continue through 2014.

The balance of the available bond funding will be requested during the current fiscal year as trailhead construction is completed along with other improvements programmed as part of the Ritz-Carlton, Dove Mountain development.
Project Summary

Funded through the 2004 Special Bond Election for $200,000, the Santa Cruz River Bridge project CT-CA-12 00000 00000 172 will assist with construction of a multi-use path connecting the linear park trail on the west bank of the Santa Cruz River to Cortaro Farms Road. This project is an extension of the previously completed 401 mile segment of the Santa Cruz River shared-use path funded, in part, with general obligation bonds (IGA 01-59-M-13118-0606).

Update

In January 2012, the Town of Marana began construction on its Santa Cruz River Shared-Use Path behind Continental Ranch, connecting the existing path at Coyote Trails Elementary School to Cortaro Farms Road. The asphalt path is 14 feet wide and three-quarters of a mile long. Two pedestrian bridges required to cross drainage channels that empty into the Santa Cruz River were partially financed with Pima County Bond Funds at $200,000. Bridge fabrication was awarded to Stinger Welding, Inc. from Coolidge. Bridges were placed in March and the project complete on July 31. Reimbursement requests for the full $200,000 were submitted to Pima County Parks and Recreation and funding has been received by the Town. This project is now closed.
August 14, 2012

C.H. Huckelberry, County Administrator  
Pima County Governmental Center  
130 West Congress  
Tucson, AZ  85701

Re:   End of Fiscal Year Report to the Pima County Board of Supervisors and Bond Advisory Committee

Mr. Huckelberry:

The Town of Oro Valley is pleased to report that all Pima County bond issue projects with the Town have been completed or have had funds transferred to other projects by action of the Town Council and the Board of Supervisors. Completed projects include improvements to Oro Valley Canada del Oro Riverfront Park (Bond # P-34), expansion of the Oro Valley Public Library (Bond # 4.45), acquisition of the historic Steam Pump Ranch property with additional funds transferred from the Naranja Park project (Bonds # 4.43 and 4.6), and acquisition of the Honey Bee Village Archaeological Preserve property (Bond # 4.11).

Funds allocated to the acquisition of the Kelly Ranch property (Bond # 1.18) have been transferred to the acquisition of open space adjacent to the Town of Oro Valley. The Oro Valley Town Council passed Resolution No. (R) 09-61 on September 16, 2009, formally requesting that the Pima County Board of Supervisors transfer 2004 Pima County bond funds allocated for the Kelly Ranch Project to the acquisition of land along the Oracle Road corridor to be used for wildlife linkages between the Catalina Mountains and the state land property known as Arroyo Grande. This land along Oracle Road included two parcels of approximately 13 acres. The Bond Advisory Committee approved the transfer in March 2010, and the $920,000 purchase was approved by the Board of Supervisors in April 2010.

On May 4, 2011 the Oro Valley Town Council approved Resolution No. (R) 11-26, requesting the transfer of remaining funds from the Kelly Ranch project to the acquisition of property for the expansion of Tortolita Mountain Park. Pima County has applied for State matching funds from the Growing Smarter State Trust Land Acquisition Program, resulting in approximately $3.6 million available for open space acquisition in the Tortolita Mountain Park area. Pima County and State Land Department staff have identified approximately 1,416 acres of land suitable for open space acquisition. This property has been independently valued at $3,510,000 to $ 3,780,000. Pima County staff continues to work with the State Land Department and Arizona State Parks to complete the acquisition.
Sincerely,

[Signature]

Greg Caton
Town Manager

Paul Keesler, Development & Infrastructure Services Director
Don Chatfield, Pima County Bond Advisory Committee Member
1. **CIP Status:** The road improvements to Duval Mine Road interchange have been completed as part of the I-19 interchange and La Canada Drive intersection improvements. The remaining bike land and shoulder widening along with additional draining improvements are not currently included in the Town’s Capital Improvement Plan (CIP).

2. **Scope and Benefits of the Project:** The previous I-19 interchange and La Canada Drive intersection projects improved Duval Mine Road between La Canada Drive and Abrego Drive. More specifically, the previous projects widened the existing roadway and the overpass structure at I-19, modified ramp geometry and improved the intersection connections at La Canada Drive and Alpha Avenue Extension. The previous projects included provisions for improved drainage, landscaping, pedestrian and bicycle movements and related elements. The projects have reduced congestion and enhanced safety along Duval Mine Road between La Canada Drive and Abrego Drive.

3. **Jurisdiction’s Actions to Implement the Project:** Several years ago the Town worked with ADOT to complete the improvements around the I-19/Duval Mine Road interchange. In FY2006 the Town expended approximately $50,000 towards a design concept report. By the end of FY2007, the Town had improved the La Canada Drive and Duval Mine Road intersection through its CIP. Construction on the remaining minor roadway and drainage improvements is not currently scheduled.

4. **Status of Intergovernmental Agreements:** N/A

5. **Unresolved Issues:** There are minor improvement elements of the project that have yet to be completed. However, the original $2 million bond allocation to the Town was reallocated to other bond projects by Pima County.
Project #OS 1.19 - Santa Cruz River Open Space @ $1,500,000

1. **CIP Status:** The County will be acquiring all open space properties and then subsequently deed the property to the Town. The Town will not incur capital expenditures for this project and, therefore, it was not included within the most current CIP.

2. **Scope and Benefits of the Project:** This project focuses on land acquisition and open space preservation within the Santa Cruz River floodplain and other major washes leading to the river within the Town. Preservation of this area would serve as a focal point for the open space system within the Town. An important factor in this project scope is the recognition that washes, tributaries, and other riparian areas along the Santa Cruz River floodplain serve as important interconnections between open space corridors within the Town’s sphere of influence as identified in the Town’s General Plan.

3. **Jurisdiction’s Actions to Implement the Project:** The Town and the County are actively pursuing the acquisition of a State Trust land property around the Green Valley Waste Water Treatment Plant.

4. **Status of Intergovernmental Agreements:** There is an existing, fully executed intergovernmental agreement between the Town and Pima County.

5. **Unresolved Issues:** There are no unresolved issues.

---

Project #CR4.41 - Anamax Park Multi-Use Ball Field @ $500,000

1. **CIP Status:** This project, which has been completed, was one component of the Anamax Park Phase I Expansion project, which was included in the Town’s CIP. Pima County bond funds covered $500,000 (minus 2.5% in County Administration fees) of the total project cost which was $2,189,000.

2. **Scope and Benefits of the Project:** Design and construct two multi-use ball fields, parking, and restroom facilities on land adjacent to the existing Anamax Park; the project developed approximately 10 acres of the 22 acre site. The population of southern Pima County and the Town are underserved with regard to having adequate ball field space available for soccer and football team oriented sporting events. The addition of two more lighted fields provides relief for this shortage of recreational facilities.

3. **Jurisdiction’s Actions to Implement the Project:** Construction on this project commenced in June 2007 and is now complete.

4. **Status of Intergovernmental Agreements:** There is an existing, fully executed intergovernmental agreement between the Town and Pima County.

5. **Unresolved Issues:** There are no unresolved issues.
Project #CR4.42 - Bicycle Lane on Sahuarita Road @ $1,500,000

1. CIP Status: The scope of this project is included within the Town’s CIP under the Sahuarita Road project (#03-019A). The total Town budget of $1,432,500 is the Maximum Allocated Amount, based on the Bond Ordinance allocation of $1,500,000 minus 2.5% which shall be retained by the County to recover a portion of the County’s administrative costs.

2. Scope and Benefits of the Project: Right-of-way acquisition for and construction of bicycle lanes on both the eastbound and westbound sides of Sahuarita Road, which is a popular cycling route in southern Arizona. Because Sahuarita Road is one of the main east/west thoroughfares in the Town and is adjacent to the Sahuarita school campuses and the Town Hall Complex, it experiences very heavy traffic demand on a daily basis. Sahuarita Road is also part of a popular bicycling loop that runs through southern Pima County around the perimeter of Tucson and is utilized by cyclists from around the County. Development of bicycle lanes will greatly improve the safety and circulation element of this roadway.

3. Jurisdiction’s Actions to Implement the Project: The Town is designing and constructing the Sahuarita Road Bicycle Lane Project in conjunction with the Regional Transportation Authority (RTA) defined Sahuarita Road Improvement Project. Due to the scale of the RTA defined project, the Town separated the Sahuarita Road Project into two phases. Sahuarita Road Phase I includes improvements from Interstate 19 to La Villita Road, while Sahuarita Road Phase II includes improvements from La Villita Road to approximately Country Club Road (the current Town limits). Construction on the Phase I portion of Sahuarita Road improvements, including bicycle lanes, started in September of 2009 and was completed in January 2011. The Phase II portion of the project will be delivered using a Construction Manager at-Risk (CMAR) process. The Phase II improvements, west of Nogales Highway, started construction in May 2012 and are anticipated to be complete in September of 2014. Phase II improvements east of Nogales Highway are at the 60% design level and will proceed to final design during construction of the improvements west of Nogales Highway. Construction east of Nogales Highway duration is anticipated to begin mid 2014 and include an estimated duration of 18-24 months.

4. Status of Intergovernmental Agreements: There is an existing, fully executed intergovernmental agreement between the Town and Pima County.

5. Unresolved Issues: There are no unresolved issues.
August 9, 2012

C. H. Huckleberry, County Administrator
Pima County Governmental Center
130 W. Congress
Tucson, AZ 85701-1317

RE: End of Fiscal Year Report to the Pima County Board of Supervisors and Bond Advisory Committee

Dear Mr. Huckleberry:

The City of South Tucson has six projects funded in part or wholly by 2004 Bond funds. Two of the projects have been completed. One project (Project #4) has been deleted. Full design of the remaining three (3) listed projects has been completed. The City will request that additional construction funds be included in any future bond elections to construct the remaining three (3) flood control projects.

The Completed Flood Control Projects Are:

1. 26th Street from South 4th Avenue to South 5th Avenue. The project alleviated the ponding that results from storm-water run-off from the City of Tucson into the northwestern area of South Tucson. The drainage project connected into an existing underground drainage facility along 5th Avenue. The project was completed by KE & G Construction, Inc. in October 2008. Total Project Construction Cost was $140,252.50.

2. South 7th Avenue and West 34th Street. The completed project will now capture storm-water runoff at the intersection of South 7th Avenue between 34th and 35th Street. In addition, this project added an all-weather crossing to the street. This project helps prevent damage to residential property and damage to public right-of-ways. Additionally, it will enable South Tucson and the City of Tucson emergency vehicles to utilize 7th Avenue under storm-water conditions. The project was completed by KE & G Construction, Inc. in October 2008. Total Project Construction Cost was $337,741.00.
The Three Remaining Flood Control Projects Are:

1. **Project #1** - East 40th Street from South 4th Avenue to South 10th Avenue and 38th Street. The proposed project will enable South Tucson to capture storm water that runs into South Tucson from the southeast portion of the City of Tucson across the railroad tracks and runs northwesterly to the Interstate 10/Interstate 19 Interchange. The project ties into a large, underground ADOT storm-drain outlet at the Highway Interchange. This project increases drainage capacity along 40th Street, and will mitigate drainage issues at our most successful commercial facility (Fiesta Mercado/Food City), and at the 60-unit owner-occupied town-home residential development (Valle del Sur) directly west of Food City. This project is fully designed. Estimated Construction Cost $2,887,000.00.

2. **Project #3** - South 7th Avenue and West 26th Street link to South 8th Avenue and West 26th Street. The proposed project improves drainage capacity near Ochoa Elementary School in the northwestern quadrant of South Tucson. Pedestrians (mainly children) will benefit by not having storm-water accumulate thus allowing them to safely cross the intersection. It will enable South Tucson and City of Tucson emergency vehicles to utilize 7th and 8th Avenues north of 25th Street under storm water conditions. This project is fully designed. Estimated Construction Cost $2,500,000.

3. **Project #5** - South 2nd Avenue and East 32nd Street to South 3rd Avenue. The proposed project captures excessive storm-water run-off from the City of Tucson into South Tucson at 32nd Street and the Union Pacific Railroad. It will connect into an existing, underground drainage facility at 4th Avenue and 32nd Street. This project was modified to connect to 4th Avenue because of utility conflicts with Tucson Water and Pima County Wastewater facilities along 3rd Avenue. This project is fully designed. Estimated Construction Cost $2,200,000.

**Total Estimated Cost:** $7,587,000.00  
**Completed Project Construction Cost:** $477,993.50  
**Total 2004 Bond Funds:** $1,719,000.00

Thank you for your continuing support for the communities of Pima County and for the City of South Tucson.

Sincerely,

[Signature]

</tr>
</tbody>
</table>

City of Tucson Project #: F810 Communications Center Expansion

Scope and Benefits.
Expand and renovate the Tucson Police and Fire Department’s combined Emergency Communications Center located at the Thomas O Price Service Center (TOPSC). Improvements include expanding the dispatch operations facility to provide backup consoles and equipment for Pima County Emergency Communications Center, replace infrastructure used in public safety, police, fire and medical dispatch operations to operate with PCWIN. Project costs will be reimbursed from voter-approved Pima County Wireless Integrated Network (PCWIN) Project, City of Tucson funds and grants.

Status of Intergovernmental Agreement. An intergovernmental agreement (IGA) between the City and Pima County for this project was approved on April 26, 2011. The agreement will provide a maximum of $4.4 million of facility and infrastructure improvements.

Jurisdiction Actions to Implement the Project.
The City of Tucson is moving forward with the design development from Welman Sperides Meckelberg Architects (WSM). The City of Tucson has selected DL Withers as the general contractor for this project. The County will reimburse the City of Tucson for actual costs incurred monthly through project completion.

Unresolved Issues. There are no unresolved issues at this time.
**PR 4.30 Lincoln Park Sport Fields**

**CIP Status.** This project is included in the City of Tucson’s Five-Year Capital Improvement Program. The table below summarizes the funding and expenditures plans and the project schedule.

</tbody>
</table>

**City of Tucson Project #:** RP12 – Lincoln Park Sport Fields

**Scope and Benefits.** The original scope of work for this project was the acquisition and first phase development of a 50-acre community sports park and senior center located along the Broadway or 22nd Street corridors east of Camino Seco.

This project was subsequently split into two projects: Udall Park Sport Fields and Lincoln Park Sport Fields.

**Status of Intergovernmental Agreement.** The original intergovernmental agreement (IGA) was approved on February 7, 2006. The Board of Supervisors approved a revised IGA on January 8, 2007 and an IGA amendment #1 was approved in December 2010. This amendment adds $220,000 to the project for a total project allocation of $3,632,500.

**Jurisdiction Actions to Implement the Project.** The project master plan is complete and a design consultant was selected in May 2009. Project design has been completed and permitted.

The project base bid and bid alternates #1 and #2 are constructed and completed.

The project bleachers were an alternate and are constructed and completed.

The additional Pima County funding of $220,000 plus construction contingency balance and City Impact fees of $196,000 will be used to complete some of the other alternates that were not awarded in the original bid. A notice-to-proceed for construction was issued May 14th, 2012. The project experienced a 6 week delay and is now expected to be completed in the fall of 2012.

**Unresolved Issues.** There are no unresolved issues at this time.
PR 4.31  Northside Community Park

**CIP Status.** This project has been included in the City of Tucson’s Five-Year Capital Improvement Program. The table below summarizes the funding and expenditure plans and the project schedule.

</tbody>
</table>

**City of Tucson Project #:** RP06 – Northside Recreation Center

**Scope and Benefits.** The project’s original scope was the acquisition and initial development of a community park to service residents in north central Tucson. Because a search for a suitable site was unsuccessful, the scope has changed from a community park to a center near First Avenue and River Road. The center is currently planned to be located on the westside of Rillito Park near First Avenue. The intergovernmental agreement (IGA) amendment will be drafted by Pima County staff.

**Status of Intergovernmental Agreement.** An IGA was approved April 24, 2007. However, due to a change in the building site, an amendment to the IGA will be needed.

**Jurisdiction Actions to Implement the Project.** On-going discussions are taking place between City and County officials regarding the highest and best use of Rillito Park and whether or not moving forward with the construction of a recreation center at this site and at this time is appropriate.

**Unresolved Issues.** Even though it has been determined that the recreation center can be constructed and operated at Rillito Park, regardless of the final uses on the remainder of the site, it would be best to Master Plan the entire park with the final uses taken into consideration. Due to the uncertainty of the future uses and funding of Rillito Park, an alternate site for the construction of the recreation center is being considered. A Bond Ordinance amendment will be developed once an agreed upon location of the recreation center has been determined.
PR 4.32 Esmond Station Regional (Southeast Community Park)

City of Tucson Project #: RP10 – Southeast Community Park

Scope and Benefits. This project is the acquisition and first phase development of a community park to be located in the vicinity of Esmond Station and in proximity to Vail School District High School in southeast Tucson. This facility will serve the Houghton Area Master Plan (HAMP) area. The design and implementation of the project will be done through collaboration between the city, school district, and residents to maximize resources.

Status of Intergovernmental Agreement. The intergovernmental agreement (IGA) was approved on February 7, 2006.

Jurisdiction Actions to Implement the Project. The City of Tucson and Pima County staff are pursuing property acquisition alternatives with the State Land Department.

Unresolved Issues.
- Acquisition of desired site from the State Land Department.
- Final ownership of land and project amenities.
PR 4.34 Julian Wash Linear Park

CIP Status. This project has been included in the City of Tucson’s Five-Year Capital Improvement Program. The table below summarizes the funding and expenditure plans and the project schedule.

City of Tucson Project #: RP1B – Arroyo Chico Urban Path: Campbell/Parkway

Scope and Benefits. A multi-use path between downtown and Reid Park is being implemented incrementally over time using multiple funding sources. This 2004 bond project targets the section between Kino Boulevard and Country Club. Segments developed benefit the regional community of bicyclists and pedestrians as well more localized neighborhood recreation.

Status of Intergovernmental Agreement. The intergovernmental agreement (IGA) was approved on April 24, 2007.

Jurisdiction Actions to Implement the Project. A master planned route has met with public approval and is being implemented. A segment between Treat Avenue and Tucson Boulevard is designed and permitted. Construction of another segment between Tucson Boulevard and Parkway Terrace will be constructed as part of this project. These developments supplement other nearby segments that are being constructed with RTA and Army Corps of Engineer funding. The long-term goal is to provide a multi-use path between downtown and Reid Park.

Unresolved Issues. There are no unresolved issues at this time.
PR 4.36 Atterbury Wash Sanctuary Expansion

City of Tucson Project #: RP02 – Atterbury Wash Sanctuary Expansion

Scope and Benefits. This project is the acquisition and preservation of a wildlife corridor and riparian area. The project will expand the existing sanctuary in Lincoln Park to the north and provide passive recreation amenities along the wash. Land acquisition was not necessary, which lead to the transfer of funds to the Pantano River project.

Status of Intergovernmental Agreement. The intergovernmental agreement (IGA) was approved on March 13, 2007.

Jurisdiction Actions to Implement the Project. The Master Plan has been developed. The first phase of the project is currently under construction and is scheduled for completion by December 31, 2012.

Unresolved Issues. There are no unresolved issues at this time.

City of Tucson Project #: SR3A – Broadway: Euclid to Country Club

Scope and Benefits. Pima County Ordinance #1997-80, Bond Implementation Plan, was amended by Ordinance #2004-118 on December 14, 2004 to update the scope and benefits of the project. This project will widen Broadway Boulevard for approximately one mile to a six-lane, divided cross-section roadway with a transit lane. Proposed improvements are consistent with earlier Broadway corridor studies and recently completed segments of Broadway. The project will reduce congestion and enhance safety along Broadway Boulevard.

Status of Intergovernmental Agreement. An intergovernmental agreement (IGA) was adopted by the city’s Mayor and Council and the county’s Board of Supervisors in December 2004.

Jurisdiction Actions to Implement the Project.
- A Citizens Task Force committee has been developed and is meeting regularly. Planning and pre-design work will continue through 2013.
- Hardship right-of-way acquisitions are being performed as needed.
- Additional County Bonds for this project are not anticipated to be used until construction in 2016.

Unresolved Issues. Working with RTA to determine if reduced cross-section will have a negative impact on the functionality of the planned improvements.
**DOT-29 Houghton Road: Golf Links to I-10**

**CIP Status.** This project has been included in the City of Tucson’s Five-Year Capital Improvement Program. The table below summarizes the funding and expenditure plans and the project schedule.

**City of Tucson Project #: SR1E – Houghton Road: Irvington to Valencia**

**Scope and Benefits of the Project.** This project is the widening of Houghton Road to a four-lane cross section with multi-use lanes, curbs, storm drains and outside landscaping; the segment between Old Vail Road and Golf Links Road is to have a six-lane cross section. This project will reduce traffic congestion along the corridor, and will enhance safety along both roadways by providing improved access control and reducing the opportunities for conflicting traffic movements.

**Status of Intergovernmental Agreement.** Intergovernmental agreement (IGA) between Pima County and RTA has been adopted for $7.5 million. The distribution of the remaining $12.5 million has not yet been determined.

**Jurisdiction Actions to Implement the Project.**
- Various design consultants will be contracted with to provide design services for the 13+ mile long corridor. The work will be spread over many years to correspond with available funding from the Regional Transportation Authority.
- The Irvington Road to Valencia Road segment is currently being rebid. Construction is expected to begin October 2012.

**Unresolved Issues.** TDOT and PC DOT staff are in discussions regarding an Intergovernmental Agreement regarding the Houghton Road/Union Pacific Railroad bridge replacement project.
DOT-58 22nd Street: I-10 to Tucson Boulevard Improvements

City of Tucson Project #: S351 – Kino Parkway Overpass at 22nd Street

Scope and Benefits of the Project. Pima County Ordinance # 1997-80, Bond Implementation Plan, was amended by Ordinance # 2012-19 on April 17, 2012 to update the scope. The proposed project will construct an overpass for Kino Boulevard over 22nd Street, and associated access ramps from Kino to at-grade signalized connections to 22nd Street. The proposed improvements will also include the 22nd Street corridor improvements from Interstate 10 (I-10) to Tucson Boulevard, which will add one new travel lane in each direction, bridges over the railroad tracks, and intersection improvements along 22nd Street to promote mobility, capacity, and safety. It will create new roadway and streetscape designs, guide future land use decisions, enhance environmental and economic sustainability, and improve mobility for vehicles, transit, bicycles, and pedestrians. Special consideration will also be given to Americans with Disabilities Act (ADA) accessibility. The proposed improvements are consistent with the environment impact statement previously completed for the Kino Boulevard corridor study.

Status of Intergovernmental Agreement. The intergovernmental agreement (IGA) was adopted by both the Regional Transportation Authority (RTA) and the county’s Board of Supervisors in September 2011.

Jurisdiction Actions to Implement the Project.
* Complete designs and coordinate with the RTA portions of this project to receive 1997 HURF bond funds for construction.

Unresolved Issues. There are no unresolved issues at this time.
