City of Tucson Mayor and Council  
City Hall  
255 West Alameda  
Tucson, AZ 85701

SUBJECT: Future Pima County Bond Election / Updated Tentatively Approved Bond  
Projects List - REVISED

Dear Honorable Mayor Rothschild and Council Members:

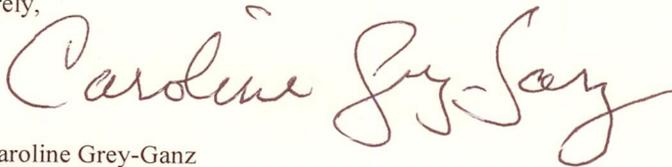

The Parks and Recreation Department has provided updates to the Parks and Recreation Commission on the future proposed Pima County Bond Election Planning process at its March 27 and April 24 meetings.

The Commission understands that the Pima County Bond Advisory Committee has been diligently working on a bond proposal since 2007. The Parks and Recreation component of the bond package tentatively approved by the Bond Advisory Committee calls for \$210,792,000 for Parks projects. The County Administrator has recently provided updated allocations where projects have been completed or funding for a particular project is no longer needed, and as a result of the adjustments, the total tentative Parks and Recreation question is \$193,752,000 of a total of \$533,742,000 (36%). Of the \$193,752,000, the projects requested by the City Parks and Recreation Department equal \$60,870,000 or 31% of the tentatively approved projects.

The Commission recommends that the Mayor and Council remain engaged in the future Bond package planning process to ensure that the City of Tucson receives a proportionate and fair share of the total bond package based on population and on the needs identified by the City.

Thank you for allowing the Tucson Parks and Recreation Commission to provide input and recommendations on this important upcoming bond proposal.

Sincerely,

Ms. Caroline Grey-Ganz  
Chairperson  
Tucson Parks and Recreation Commission
