Pima County Bond Advisory Committee
Meeting

Friday June 14, 2013
8:00 A.M.

DoubleTree Hotel by Hilton – Reid Park
(Salons A-D of the Main Ballroom)
445 South Alvernon Way,
Tucson, Arizona

SUMMARY OF MEETING

Committee Members Present
Larry Hecker, Chair
Carolyn Campbell, Vice Chair
Joe Boogaart
Donald Chatfield
Gary Davidson
Brian Flagg (left at 10:55)
Rene Gastelum (left at 11:05)
Kelly Gottschalk
Terri Huts
David Lyons
A.C. Marriott
Wade McLean
Ted Prezelski
Patty Richardson
Susan Romero
Chris Sheate
Dan Sullivan
John Sundt
Tom Warne

Committee Members Absent
Tom Dunn
Jesus Gomez
Mike Lund
Greg Wexler

MOTIONS

MOTION: Terri Huts moved, seconded by David Lyons to approve the March 29, 2013 meeting summary with a correction to page 2. Motion approved 19-0.

MOTION: Tom Warne moved, seconded by David Lyons, to approve the County Administrator’s recommended changes to the Committee’s criteria.
used for reviewing bond project proposals, add criteria regarding a commitment to fund ongoing costs, add criteria stating that the project should be a capital improvement project and not a maintenance project, and move the Imagine Greater Tucson principles and economic development principles to the end to apply to the entire bond package after it is developed. Motion approved 18-1.

MOTION: Terri Huts moved, seconded by David Lyons, to delete the projects highlighted in yellow on the tentatively approved list (projects no longer needed). Motion approved 18-0.

MOTION: Patty Richardson moved, seconded by Dan Sullivan, to devote specific Committee meetings to specific project types and request that criteria applications be submitted to the County by July 15. Motion approved 18-0.

**MEETING SUMMARY**

1. Welcome

   The meeting began at 8:10 a.m. with a quorum.

2. Approval of the March 29, 2013 Meeting Summary

   **MOTION: Terri Huts moved, seconded by David Lyons to approve the March 29, 2013 meeting summary with a correction to page 2. Motion approved 19-0.**

3. Future Bond Election - Project Updates, Resubmittals and New Projects

   Dan Sullivan asked County Administrator Chuck Huckelberry to address the legal and practical implications of the City of Tucson creating their own bond advisory committee. Mr. Huckelberry responded that there are no legal implications, it's the City's choice, and it is unknown how they may interface with the County's committee. Kelly Gottschalk, City of Tucson appointee to the County's committee, responded that the intent of the City's committee is to address the $1.3 billion of capital needs of the City and what the appropriate funding mechanisms may be to address such needs, including County bond funds.

   **A. Report from County Administrator**

   Mr. Huckelberry summarized the materials that were sent to the Committee for this meeting, starting with the history of this planning effort. In 2006 the Committee received proposals totaling about $3.4 billion, including about $1.4 billion in sewer revenue bonds which were later withdrawn to be funded with nonvoter approved bonds. Subcommittees of the Committee then met to consider the $2 billion of projects and made recommendations to the full
Committee. The full Committee, over a couple of years, then pared the projects down to about $650 million (their Tentatively Approved list). At the January 2013 meeting, the Committee then requested that this list be refreshed by updating the Tentatively Approved projects and asking the community if any additional projects should be considered. In April and May 2013 the County then received another $650 million of new or resubmitted projects. This is an evolutionary process.

A timeline was provided to the Committee with recommendations on how to move forward. For the tentatively approved projects, the recommendation was that the Committee delete the projects highlighted in yellow as they are no longer needed. Projects in red are recommended for changes to scope or funding. Projects in blue are recommended for substantial rejustification.

The new requests received in April and May 2013 fall into 4 categories: additional updates to tentatively approved projects, resubmittals of projects previously rejected, new projects, and new regional employment center related projects. The largest of the new projects are two requests involving the University of Arizona and downtown Tucson. They are just ideas at this time. They could result in a total of $30 million or $200 million, no one knows yet. Phoenix funded the development of a portion of Arizona State University’s downtown campus with bonds. Data on economic benefits, including tax revenues, will be necessary to review. The projects proposed under the regional employment center category are there in case the Committee decides to pursue this category, and most are road improvements and are still very much conceptual.

It was also recommended that the Committee update their criteria for evaluating the projects and apply it to projects, as well as requesting that the jurisdictions that did not yet prioritize their projects, do so.

Mr. Huckleberry then provided a hand out that provided three scenarios regarding how much additional new voter approved debt the County could afford.

(A) Declining debt service payments and declining property tax rates if no additional bond elections are held and subsequently no additional voter approved debt is incurred;

(B) Conservative growth in assessed property values, additional debt service payments, tax rate constant at 81 cents, for a total of $520 million in new bond sales over 10 years;

(C) 5% growth in assessed property values, additional debt service payments, tax rate constant at 81 cents, for a total of $650 million in new bond sales over 10 years.

Chairman Larry Hecker then asked about the timeline to get to a November 2014 election. Mr. Huckleberry replied that over the summer staff could seek public input on the projects, preferably through an online survey, as well as refining recommendations to the committee for updating the tentatively
approved list (red projects) and rejustifying others (blue projects). The Committee could then deal with the red and blue projects at their September meeting, deliberate on the new projects at meetings held in October through January, gather additional public input in January on the draft recommendations, with final recommendations to be made to the Board of Supervisors in February or March 2014. The Board would then decide whether to call an election by May or June 2014.

Mr. Hecker noted that just because voters approve debt doesn’t mean it becomes debt until the Board actually approves selling the bonds.

Gary Davidson expressed frustration about getting calls from people who don’t understand the process and that the list of projects is not final until the Board votes.

David Lyons asked about the interest rates assumed in Mr. Huckelberry’s analysis. Mr. Huckelberry responded that he assumed 4 percent, but that the County was able to get 2 percent interest rates for recent bond sales.

Kelly Gottschalk stated that the process seems reasonable, but questioned why some of the City of Tucson’s projects are still highlighted blue for substantial rejustification. Mr. Huckelberry explained that more detail is needed for some of those projects.

B. Call to the Audience

The following people spoke during call to the audience regarding the projects or project categories listed. They were in support of the projects unless listed as "opposed". Several people submitted speaker cards with comments, but selected the "do not wish to speak" option. Those comments are summarized at the end of this meeting summary.

C. Criteria for Reviewing Projects

MOTION: For purposes of discussion, Tom Warne moved, seconded by David Lyons, to approve the County Administrators recommended changes to the Committee’s criteria used for reviewing bond project proposals.

Gary Davidson proposed that the criteria should include a provision that projects be capital improvements and not maintenance. Mr. Davidson also suggested that the Imagine Greater Tucson goals be part of an overall evaluation after a bond package is developed. Several members discussed the Imagine Greater Tucson suggestion.

Tom Warne and David Lyons accepted Gary Davidson’s proposals as amendments to their original motion.

Terry Hufts proposed that each jurisdiction enter into a written contract stating that they will fund the annual operating and maintenance costs
associated with bond projects that they are proposing. Kelly Gottschalk responded that City of Tucson has had some difficulties funding annual costs due to the great recession, but that the package the City is proposing for a future bond election takes this into consideration. Chairman Hecker suggested that language be inserted into a future bond ordinance stating that the Board of Supervisors can choose not to sell bonds for a particular project if a jurisdiction is unable to commit to funding these ongoing costs.

Joe Boogaart suggested adding a public health and safety criteria. Vice-Chair Campbell clarified that the criteria would be generally applied to projects as opposed to using a point system of sorts. There was discussion about moving the economic development criteria to an overall package criteria.

Tom Warne and David Lyons accepted the proposed amendments to the original motion. The final motion was as follows:

**MOTION:** Tom Warne moved, seconded by David Lyons, to approve the County Administrator’s recommended changes to the Committee’s criteria used for reviewing bond project proposals, add criteria regarding a commitment to fund ongoing costs, add criteria stating that the project should be a capital improvement project and not a maintenance project, and move the Imagine Greater Tucson principles and economic development principles to the end to apply to the entire bond package after it is developed. Motion approved 18-1.

Mr. Huckleberry stated that staff would revise the criteria and application of criteria forms per the motion and send out to jurisdictions and organizations to apply to projects.

Gary Davidson stated that if jurisdictions chose not to prioritize their projects then the Committee will have to do it for them.

**D. Deletion of Projects No Longer Needed**

**MOTION:** Terri Hutts moved, seconded by David Lyons, to delete the projects highlighted in yellow on the tentatively approved list (projects no longer needed).

Vice-Chair Campbell asked for clarification on two of the projects.

**Motion approved 18-0.**

**E. Prioritization of Projects**

The Committee supported requesting that cities and towns prioritize their projects.
F. Process, Timeline and Public Outreach

Chairman Heckler referred to the process and timeline within the memorandum on this subject. Don Chatfield asked whether the Committee would need to break back into subcommittees. Patty Richardson suggested instead that the Committee devote specific meetings to specific project types (like one meeting for parks and recreation projects) so that those interested in just those projects can attend that meeting in particular.

Terri Hults asked whether there should be a subcommittee to discuss the issues concerning the school district partnership project. Nicole Fyffe responded that staff would be reviewing that project over the summer and meeting with school districts if necessary. Committee members could be invited to those meetings and so long as there was not a quorum of members, it would not be considered a meeting of the Committee.

Mr. Huckleberry stated that a draft of the bond project survey would be circulated to Committee members for input prior to finalizing.

**MOTION:** Patty Richardson moved, seconded by Dan Sullivan, to devote specific Committee meetings to specific project types and request that criteria applications be submitted to the County by July 15. Motion approved 18-0.

4. Results from Performance Audit of Completed Bond Projects

Mr. Huckleberry reported that the Committee had received the full report and that staff were available if there were any questions.

5. Next Meeting and Future Agenda Items

The next meeting was scheduled for September 20th, but it was requested that some alternative dates be circulated. It was also requested that once a date is set, we stick with it as it is difficult for some Committee members to change their schedules.

Gary Davidson requested that the agenda for the next meeting include the adoption of a total bond dollar ceiling for the future bond election.

Other items: End of year update of past voter approved bond programs, bond ordinance amendments if necessary, continued future bond election planning.

6. Adjournment

Meeting was adjourned at 11:15 a.m.

ADDRESS 79 W. CMO. RANCHO CUCO

CITY SAHUARITA STATE AZ ZIP 85629

TELEPHONE NUMBER 520-235-0223

COMMENTS: Sahuarita desperately needs bond money for the pool/rec center. We have been waiting for 7 years. The issue to be approved. We now have added a request for more playing fields which is also very urgent.

Our town has had more growth in the last 10 yrs. We are already so far behind on the needs for our youth. Please do not delay any longer.

Thank you.

OVER

Our neighborhood organization strongly supports Neighborhood Amendment!

We believe that neighborhood projects are essential in creating community. In addition to the obvious benefits of maintaining and enhancing our city’s infrastructure, the process of planning, applying for, and working on projects brings neighbors together in a meaningful way.

We believe strong communities and neighborhoods are necessary for a successful city county and country.

Towards being a more attractive place to live and help increase our property values. Right now, our neighborhood, El Rio Acres, is a borderline area that really needs some investment to keep from tipping towards a troubled area.
Foster knowledge and friendship. A library is a hospital for the mind. While we enjoy reading the same books over and over, but would thrive on a large selection of children's books as well as others.

Thank you.

AGENDA ITEM NO.: 1

AGENDA ITEM DESCRIPTION:

NAME: David Buchanan-Williams
ADDRESS: 350 E. 15th St
CITY: Tucson, STATE: AZ ZIP: 85701
TELEPHONE NUMBER: 928-4852"
Good morning. My name is David Bachman-Williams and I am speaking to you as a spokesperson for the other BAC, the Tucson Pima County Bicycle Advisory Committee. We are very interested in the deliberations of this body because there are several proposed projects that are in the mix you are considering.

In terms of the criteria that is before you we would like to point out the following: In terms of broad demonstrated support we are confident in saying that the bicycling public in Pima County is quite large and growing. Evidence of this can be seen in the growth of bicycle commuting which recently jumped to 3% and could be higher with more and better facilities. But there is also a huge number of recreational riders as a result of our communities push to have good recreational bicycling facilities. The Loop is the primary example.

For regional benefit we would point out the obvious health benefits and, in terms of commuting the very real congestion and parking relief that shifting people from cars to bicycle provides. Denmark did a study showing that every kroner spent on bicycle facilities reduced the need for other transportations monies by a factor of 1.5. If the 4000 commuting cyclists on Third Ave. were instead driving on Broadway Sixth and Speedway it would be a very noticeable difference. And there is the obvious reduced pollution, greater sustainability and conservation elements. The Loop certainly qualifies as a large scale, and we would add successful, project that needs ongoing funds.

We will over the summer review projects of interest to the Bicycle Advisory Committee and be ready with a list of projects with proper justification for you to consider in your process at your next meeting on September 20th.

Thank you.
